# twas a Great GREEN Night

The third annual St. Patrick's Dance was the most successful yet for the New Castle Senior Center. A sellout crowd revelled to the Seven Rings music and feasted on the offerings of local fave Smokin' Cuisine. All enjoyed the beverages served by Crisi, Lynn and Kat. 50-50 winner Sally Denton graciously donated her winnings to the Center. The basket raffle won by Bob Parker-whatda ya say? The Dance Committee would like thank everyone and hopefully we'll see everyone at the Wharf Dance in September.

# nachos

Ever thought about making nachos with bacon before? These will become a regular for your house!

This recipe is inspired by **appleydapply** Bacon and Onion Nachos. I had unexpected company come by and I wanted to make lunch for them. This is the result I got. It's hot and spicy but you can decrease the amount of jalapeño peppers. If you do not like crisp vegetables, microwave them to the desired consistency you like. Gotta be crisp in Cobble House.

## ingredients

- ◆ ½ lb bacon, cooked and crumbled (divided)
- ◆ ½-¾ cup red onion, chopped (divided)
- ◆ 1 medium tomato, seeded and chopped
- ◆ 1 (2¼ oz) can sliced black olives and/or diced tomatoes
- ◆ 6-7 jalapeño peppers, seeded and chopped (divided)
- ◆ 2½ cups Mexican blend cheese (Shredded cheddar and Monterey Jack Cheese, divided)
- ◆ 9 ounces tortilla chips

## directions

- ◆ Preheat oven to 425°
- ◆ Line a baking sheet with foil.
- ◆ Spread ½ bag of **Tostitos** over the foil.
- ◆ Sprinkle with half the bacon, onion, peppers and 1 cup of cheese.
- ◆ Spread the remaining ½ bag of Tostitos on top.
- ◆ Top with remaining bacon, onion, peppers, olives and tomatoes.
- ◆ Top with 1½ cup remaining cheese.
- ◆ Bake for 5-10 minutes or until the cheese is melted and slightly browned.

## Shamrock Cake Shooters

### ingredients

- 1 cup vanilla pudding
- 1 tsp peppermint extract
- Green food coloring
- 6 Fiber One™ 90 Calorie chocolate fudge brownies, crumbled
- Green and gold sprinkles

### directions

- ◆ Whisk together the vanilla pudding and peppermint extract until combined, adding more or less extract to taste.

Whisk in green food coloring until your desired shade is achieved.

- ◆ In small shot glasses, layer about 1 teaspoon of the crumbled brownies, then 1 teaspoon pudding. Repeat. Top with sprinkles.

- ◆ Serve immediately, or refrigerate in a covered container for up to 3 hours.

The public is invited to the opening reception at the arts center on **First Friday, March 6, from 5 to 7pm** to meet the artists and enjoy hors d'oeuvres.

March's featured artist is **Dennis Young** who is exhibiting a show of pastel and oil paintings entitled **"Waiting for Summer."**

Young, a doctor from New Castle, De., generally works outside on location, but retreats to his studio in cold weather, often painting portraits. He waits for the season when he can get back outside to paint and participates in six to eight plein air events a year, including the August event in Ocean City.

The "Waiting for Summer" show will feature many of Young's plein air paintings done in the vivid hues that pastel paints bring to his art.

# STUPID IS AS STUPID DOES.

- Forrest Gump

We all appreciate the "Stupid Criminal" stories but this twist is on the "Stupid Victim!"

A scam occurred in the parking lot of the New Castle Farmer's Market last week. A 36 year-old victim reported to police that she was approached by two subjects in the lot that day asking her if she would like to buy an Apple I-Pad or Samsung tablet for \$400.00. The victim agreed to buy two I-pads, at which time the suspects showed her an item wrapped in bubble wrap that displayed the apple symbol on top of it. The items were later discovered to be ceramic tiles inside of an Apple box.

One wonders who is strolling the parking lot of the Farmers Market with a spare \$800 bucks? And the thief's price is not that much different than the Apple store or Amazon!

The objective is to fill the grid in with the digits 1 through 6 such that:

- Each row contains exactly one of each digit
- Each column contains exactly one of each digit
- Each bold-outlined group of cells is a cage containing digits which achieve the specified result using the specified mathematical operation: addition (+), subtraction (-), multiplication (x), and division (÷). (Unlike Killer Sudoku, digits may repeat within a cage.)
