# mosquito trap

## you'll needed

- 1 cup water
- 1/4 cup of brown sugar
- 1/8 oz of yeast
- 2-liter plastic bottle

## how to make it

1. Cut the plastic bottle in half.
2. Mix brown sugar with hot water. Let cool. When cold, pour in the bottom half of the bottle.

3. Add the yeast. No need to mix. It creates carbon dioxide, which attracts mosquitoes.
4. Place the funnel part, upside down, into the other half of the bottle, taping them together if desired.
5. Wrap the bottle with something black, leaving the top uncovered, and place it outside in an area away from your normal gathering area. (Mosquitoes are also drawn to the color black.)

Change the solution every 2 weeks for continuous control.

**Natl Mosquito Control Awareness Week**  
**June 23-29**  
 DNREC Mosquito Control Section

# Wet **BBO** Ribs

## ingredients

### SAUCE

- 32 ozs ketchup
- 16 ozs water
- 6 ozs brown sugar
- 6 ozs white sugar
- 1 tbsp freshly ground black pepper
- 1 tbsp onion powder
- 1 tbsp dry mustard powder
- 2 ozs lemon juice
- 2 ozs Worcestershire sauce
- 8 ozs apple cider vinegar
- 2 ozs light corn syrup
- 3 to 4 pounds spare ribs
- 2 ozs Neely's Seasoning Mix, recipe follows

### SEASONING MIX

- 4 ozs paprika
- 2 ozs sugar
- 1 tsp onion powder

## directions

Combine all of the sauce ingredients in a stockpot or large Dutch oven. Bring to a boil over high heat, stirring frequently to prevent sticking. Reduce temperature to low and simmer, uncovered, for at least 30 minutes. Meanwhile, trim the spare ribs, removing the upper brisket bone and any excess fat; this will produce a St. Louis-style rib. Rinse the ribs and season with Neely's Seasoning, and then cover and refrigerate for 4 to 12 hours.

Indirect cooking in a barbecue pit is recommended to prevent burning. Cook at 250 degrees F (curled side of ribs facing up) for the first 3 hours, and then increase the temperature to 300 degrees F for the final 3 hours. Baste the ribs only during the last 30 minutes of cooking to prevent sauce from burning

Recipe courtesy Patrick and Mark Neely

## Bay of Passion

**how to** Combine all in a cocktail shaker, fill with ice, and shake vigorously. Strain into an ice-filled highball glass. Garnish with a twist of orange.

### you'll need

- 30 (1 oz) 42BELOW Passion
- 90 (3 oz) cranberry juice
- 60 (2 oz) pineapple juice
- 1 slice of ginger root, finely diced
- Orange zest to garnish

## Cobblestones

is growing!

Every Sunday morning, 550 plus "Cobbles" receive their weekly dose of New Castle's comings and goings and other good and interesting stuff! Cobblestones is my "fun" project, a service to the community. There is *no charge* to community organizations for their listings. **Keeping the 'community fun philosophy' Cobblestones is free of political or social issue advertising.**

Space for **commercial/business ads** require a donation of **\$50** to cover time and materials. That covers **four random insertions.**

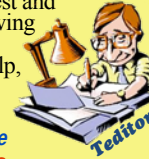

**Checks made to me personally.**

Ads should be a moderate size. A jpg or PDF works the best. Let me know early in the week an approx. size with a final copy Thursday. If it's just a listing for "events", please send me copy as soon as possible.

Personally, I would like to thank everyone for your interest and participation in the growing Cobblestones family. Anything I can do to help, please let me know.

[flytedb13@comcast.net](mailto:flytedb13@comcast.net)

Tell them you saw it in the **Cobblestones**

Hello Teditor...

I'm working in Syracuse at JP Morgan Chase, fishing is good at Tully Lake and the weather is nice and not too hot. Miss Port, Jessops and Noras and all the great people there a shout out to everybody. Trying to get a concert up here in beautiful Syracuse will keep you all posted.

Will try to make some of the great festivals in Olde NC hope everybody living the good life another day in paradise.

Operaman Jan

## Taverns, Taprooms and Tippling Houses.

Ongoing at the Old Library Museum, explores the history of drinking establishments - both legal and illegal - in New Castle since the 17th century. At the Old Library Museum, Weekends (excluding holidays),

40 E. 3<sup>rd</sup> Street, 1pm to 4pm Free.

## WALKING TOURS of BATTERY PARK

Wednesday, June 26, 6:00pm

Dorothy Colburn, who writes the "What Birds Are Here?" column for the New Castle Weekly, will lead a bird watching walk in Battery Park. There is a concert in the park that night at 7:00 p.m., so come learn about the backyard and water birds in Battery Park and then settle in for an enjoyable evening of music. Please wear light-colored pants that you can tuck into your socks, and, if possible, bring binoculars. (The rain date is Sunday, June 30.)

Tours are limited to 15 participants and start at the foot of Delaware Street at the Banks Building. Please e-mail [ibiggs@verizon.net](mailto:ibiggs@verizon.net) or call 302-328-1709 to reserve a space. Show-ups are welcome, space allowing.

**"I'll lasso the moon"** said George Bailey and maybe tonight he could! This full moon **tonight, June 23rd**, is not only the closest and largest full moon of the year. It also presents the moon's closest encounter with Earth for all of 2013. The moon will not be so close again until August.

Astronomers call this sort of close full moon a perigee full moon. The word perigee describes the moon's closest point to Earth for a given month. Two years ago, when the closest and largest full moon fell on March 19, 2011, many used a term we'd never heard before: supermoon. Last year, we heard this term again to describe the year's closest full moon on May 6, 2012. Now the term supermoon is being used a lot. Last month's full moon - May 24-25, - was also a supermoon. But the June full moon is even more super! In other words, the time of full moon falls even closer to the time of perigee, the moon's closest point to Earth. The crest of the moon's full phase in June 2013, and perigee, fall within an hour of each other.

T&J, Editor **WATCH'N PHILLIES!**

- ☺Americans eat the equivalent of 10 acres of pizza (and mozzarella cheese) every day.
- ☺Just ate spicy food? Milk is better than water for cooling your mouth. A protein in milk called casein, cleanses the taste buds.
- ☺Cheddar cheese was first developed in the town of, yes, Cheddar Gorge, England, more than 400 years ago.
- ☺A gallon of milk weighs 8.59 pounds.
- ☺A cow has four stomachs and 24 teeth.
- ☺The most common breed of dairy cow in the United States is the Holstein; Jersey cows produce milk with the highest butterfat content.
- ☺An average cow produces about 350,000 glasses of milk in her lifetime.
- ☺Plastic milk bottles were first introduced in the United States in 1967.
- ☺McDonald's and Wendy's introduced single-serve plastic milk containers in the summer of 2004.
- ☺The tradition of making Swiss cheese in 200-pound wheels began in the Middle Ages, when the Swiss government taxed cheesemakers on the number of pieces they produced, rather than according to the total weight of the cheese they made.
- ☺To get the same amount of calcium provided by 8 ounces of milk, you would have to eat 2 1/4 cups of broccoli, 6 3/4 oranges or 6 slices of wheat bread.
- ☺If you open the refrigerator in 96 percent of all households, you'll find a container of milk; 94 percent of all households have cheese.
- ☺Forty percent of all cheese is served at restaurants and cafeterias.
