Let Freedom Ring

Join the Celebration!

Begins nationally with tapping the Liberty Bell in Philadelphia at 2 PM Eastern Daylight Time on the 4th of July each year. This year over 100,000 Americans will participate at sites that include the Betsy Ross House, the USS Arizona Memorial in Pearl Harbor, the USS Missouri, the Alamo in San Antonio, churches in Philadelphia and New York and Washington DC, and the carillons of Yale and Princeton and the Washington Memorial Chapel at Valley Forge. **This is the eighth year that Historic New Castle has participated in this ceremony.**

The public is cordially invited to attend Northern Delaware's annual 4th of July bell-ringing ceremony. Children, families, friends and neighbors of all ages are cordially invited to celebrate our ancestors' decision, made by 18th century Delawareans right here in historic New Castle, to achieve liberty and independence. At 2pm Eastern Daylight Time, bells across New Castle and across the Nation will peal, officially commemorating the birth of American Independence, all participating in America's National **Let Freedom Ring Celebration.**

All are invited to attend the local opening ceremonies at **1:25 p.m. sharp** at **Immanuel Church on the Green.** The Major Robert Kirkwood Chapter SAR Color Guard will open and close the program.

This year's keynote speaker will be **Mary Mecca**, winner of the George S. and Stella M. Knight Essay Contest, sponsored by the National Sons of the American Revolution. Guests will remain seated for the pealing of the church bells. Following the main bell ceremony, thirteen children, representing the thirteen colonies, will ring a smaller bell, donated to the day's event by the Old Courthouse Museum.

Re-enactors, docents, and all who love wearing 18th century garb are invited to come dressed in period attire. Participants are requested to be seated inside the church by 1:25 p.m. as the program will begin at 1:30 p.m. sharp.

H2O what?

ANSWERED

MSC Responds with Answers to H2O What?

The Municipal Services Commission (MSC), the City of New Castle's water and electric provider would like to respond to the "H2O What?" article published in the June 23, 2013 Cobblestones.

The "public well near New Castle" referenced in the article is an Artesian Water Company well south of New Castle that was shut down due to high levels of the unregulated contaminant 1,4 Dioxane. In May 2013, the MSC proactively chose to test our three wells for this same compound and upon receipt of the lab reports in June sent them to the State of Delaware Office of Drinking Water for review. The MSC has been advised by the State that although trace levels of the contaminant were detected in two of our three wells, no action is required at this time because the amounts were just at the detection limit. Additional information about this unregulated contaminant and our testing will appear in the MSC's next quarterly News Letter. If there are any questions or concerns regarding water quality in the City of New Castle we welcome your calls at 302-323-2330.

Sunny days, fresh water, sandy beaches;

all of these could be used to describe summer on the water. It's the time of year when the snowsuits go into storage and the swimsuits come out. Every year, however, rip currents continue to claim lives on America's beaches.

The photo shows what a rip current looks like from a beachgoers perspective. What's a rip current?

Knowing what a rip current is and how they form is the first step to staying safe out on the water, no matter what beach you may find yourself on. See more at: ► [Rip Tips](#)
