July 21, 2013

The New Castle City Police are continuing to investigate numerous burglaries that occurred between July 7th, 2013 and July 16th, 2013 in the center city area of Old New Castle.

Since then, police have concentrated on the affected area during the early morning hours and gathered information on potential persons of interest. On July 18th, 2013 at approximately 10am a New Castle City Police Detective apprehended one of those persons in the Old New Castle area who was riding a bicycle that had been stolen from a yard on 3rd Street the morning these burglaries began. John T. Brown, 38, who reportedly has no fixed address, was charged with Burglary (3rd Street residence), two counts of Theft and Criminal Trespassing. Brown was committed to the Young Correctional Facility in lieu of \$4600.00 secured bond pending a preliminary hearing. The investigation is still ongoing, and police are not ready to rule out the possibility of someone else that may be involved. The New Castle City Police continue to urge residents to **lock their doors and windows and to set home security alarms**, particularly during the evening/early morning hours. Residents are still being encouraged to report any suspicious activity or persons in the area to police (302-322-9800 or 302-573-2800) at the time the activity is observed. Anyone with information regarding the burglaries should contact police at 302-322-9800. –Senior Lt. Adam Brams

BEER CAN CHICKEN

Q Why did the chicken cross the road?

A Because it couldn't remember where it left its beer!

gather together

- 1 (4-pound) whole chicken
- 2 tablespoons vegetable oil
- 2 tablespoons salt
- 1 teaspoon black pepper
- 3 tablespoons of your favorite dry spice rub
- 1 can beer (at the discretion of the cook)

get'r done!

Remove neck and giblets from chicken and discard. Rinse chicken inside and out, and pat dry with paper towels. Rub chicken lightly with oil then rub inside and out with salt, pepper and dry rub. Set aside.

Open beer can and take several gulps (make them big gulps so that the can is half full). Place beer can on a solid surface. Grabbing a chicken leg in each hand, plunk the bird cavity over the beer can. Transfer the bird-on-a-can to your grill and place in the center of the grate, balancing the bird on its 2 legs and the can like a tripod.

Cook the chicken over medium-high, indirect heat (i.e. no coals or burners on directly under the bird), with the grill cover on, for approximately 1 1/4 hours or until the internal temperature registers 165° F in the breast area and 180° F in the thigh, or until the thigh juice runs clear when stabbed with a sharp knife. Remove from grill and let rest for 10 minutes before carving.

*These plants are enjoying and thriving on the heat. Full bloom Crape Myrtle and Native Wisteria in the **Maddux/Merry Garden**.*

How's your garden growing?

1800 Watermelon Margarita

(courtesy of Chevys Fresh Mex)

Stuff

- 1 1/4 oz. 1800 Silver Tequila,
- 3/4 oz. Agavero Orange,
- 1 oz. Sweet & Sour,
- 2 oz. Fresh Watermelon Puree

Make

Fill a shaker glass half way with cubed ice. Add all ingredients as listed. Hand shake vigorously 5 times. Pour entire contents into a 12 oz. old fashion glass. Garnish with a watermelon sugar rim and lime wheel, then serve cold!

Kat is 'on the road again!'

what's NEW OUT THERE

findables is a smartphone case with an app that acts like a business card, calling card, or lost and found notice. DuPont working on Wireless Charging Countertops

Do you leave your phone on the kitchen table a lot? If you do, then you'll be pleased to know that it won't just be sitting there idly, thanks to a collaboration between **DuPont Building Innovations** and the Power Matters Alliance.

They've come up with a surface that can charge smartphones and other devices wirelessly. They basically took Powermat's wireless charging technology and embedded that within Corian solid surfaces. The latter is basically a synthetic, granite alternative that's often used for countertops. This new technology isn't just for kitchen counters. The surface can also be installed on nightstands and coffee tables. Who knows? We might soon see countertop chargers installed in public spaces soon.
