I missed a birthday last week. Art Clokey would have been 91 last Wed., Oct. 12th.

Art who you may ask. **Arthur "Art" Clokey** was a pioneer in the popularization of stop motion clay animation, beginning in 1955 with a film experiment called Gumbasia,

From the Gumbasia project, Art Clokey and his wife Ruth invented **Gumby**. Since then Gumby and his horse Pokey have been a familiar presence on television, appearing in several series beginning with the **Howdy Doody Show** and later The Adventures of Gumby. The characters enjoyed a renewal of interest in the 1980s when American actor and comedian Eddie Murphy parodied Gumby in a skit on Saturday Night Live. In the 1990s Gumby: The Movie was released, sparking even more interest.

Clokey's second most famous production is the duo of **Davey and Goliath**, funded by the Lutheran Church in America.[3] In honor of his contributions to clay animation and to celebrate the 90th anniversary of his birth, the **Google doodle** on October 12, 2011 was based on his animated clay characters.

CEILING FANS can help warm up a room in the winter months. The ceiling fan direction in winter should be rotating clockwise or reverse. Warm air rises and gets trapped near the ceiling so when the ceiling fan direction is in reverse mode it circulates the warm air from the ceiling to the floor helping take the chill out of the air. Without a ceiling fan the warm air would continue to be trapped near the ceiling and the floor level would continue to stay cold. The reverse mode only works if the fan is on low.

New Castle's **HONDA** Connection

A bit early...but

Cobblestones learned of **Operation Christmas Child** at Thanksgiving dinner last year. Discovering what a worthwhile opportunity this was to do something for children who have little or nothing, I felt this giving experience needed to be shared.

Operation Christmas Child distributes 'shoe boxes' that you or your organization pack and send to Samaritan's Purse to distribute around the world. Last year 8 million children received shoe boxes. Over 130 countries have received shoe boxes since 1993.

Samaritan's Purse is an international relief organization, headed by Franklin Graham, that provides immediate, no-red-tape response to the physical and spiritual needs of individuals in crisis situations.

Onions

Common onions are normally available in three colors: yellow, red, and white. Yellow onions are full-flavored and are a reliable standby for cooking almost anything. Yellow onions turn a rich, dark brown when cooked and give French onion soup its tangy sweet flavor. The red onion is a good choice for fresh uses or in grilling and char-broiling. White onions are the traditional onion used in classic Mexican cuisine. They have a golden color and sweet flavor when sautéed.

While the large mature onion bulb is the onion most often eaten, onions can be eaten at immature stages. Young plants may be harvested before bulbing occurs and used whole as scallions. [8] When an onion is harvested after bulbing has begun but the onion is not yet mature, the plants are sometimes referred to as summer onions. [9]

Additionally, onions may be bred and grown to mature at smaller sizes. Depending on the mature size and the purpose for which the onion is used, these may be referred to as pearl, boiler, or pickler onions. [9] (However, true pearl onions are a different species.) Pearl and boiler onions may be cooked as a vegetable rather than an ingredient. Pickler onions are, unsurprisingly, often pickled.

Onion seed may be "sprouted", and the resulting sprouts used in salads, sandwiches, and other dishes.
