## HONORING ALL WHO SERVED

**Army ★ Marines ★ Navy ★ Air Force ★ Coast Guard**

**Today** we pay respect to our veterans for their contribution to the safety and security of our country and its citizens.

World War I – known at the time as "The Great War" – officially ended when the Treaty of Versailles was signed on June 28, 1919, in the Palace of Versailles outside the town of Versailles, France. However, fighting ceased seven months

Soldiers of the 353rd Infantry near a church at Stenay, Meuse in France, wait for the end of hostilities. This photo was taken at 10:58 a.m., on November 11, 1918, two minutes before the armistice ending World War I went into effect

earlier when an armistice, or temporary cessation of hostilities, between the Allied nations and Germany went into effect on the eleventh hour of the eleventh day of the eleventh month. For that reason, November 11, 1918, is generally regarded as the end of "the war to end all wars."

In November 1919, President Wilson proclaimed November 11 as the first commemoration of Armistice Day with the following words: "To us in America, the reflections of Armistice Day will be filled with solemn pride in the heroism of those who died in the country's service and with gratitude for the victory, both because of the thing from which it has freed us and because of the opportunity it has given America to show her sympathy with peace and justice in the councils of the nations..."

The original concept for the celebration was for a day observed with parades and public meetings and a brief suspension of business beginning at 11:00 a.m.

The United States Congress officially recognized the end of World War I when it passed a concurrent resolution on June 4, 1926.

On October 8th, President Dwight D. Eisenhower issued the first "[Veterans Day Proclamation](#)" which stated: "In order to insure proper and widespread observance of this anniversary, all veterans, all veterans' organizations, and the entire citizenry will wish to join hands in the common purpose. Toward this end, I am designating the Administrator of Veterans' Affairs as Chairman of a Veterans Day National Committee, which shall include such other persons as the Chairman may select, and which will coordinate at the national level necessary planning for the observance. I am also requesting the heads of all departments and agencies of the Executive branch of the Government to assist the National Committee in every way possible." **16** *Napoleon Guerin* patented the cork life preserver. 1841, *Gen. William T. Sherman* and his troops began their "March to the Sea". 1864, *Lucy* first held a football for *Charlie Brown*. 1952, *Sixteen Tons* became the fastest-selling record in history. 1955, *Dr. Samuel Sheppard* was acquitted in his second trial that he had murdered his wife, Marilyn. 1966

**17** Congress held its first session in the partially completed *Capitol building*. 1800, *US Post Office* issued a 1-cent carrier stamp. 1851, The first *underwater submarine* journey was taken, from Southampton, England, to the Isle of Wight. 1904, The *'Heidi Game'* happened. The Jets/Raiders football game was cut off to begin a family show ("Heidi") on NBC. TV viewers missed Oakland's two touchdowns (in nine seconds) to win the game 43-32. NBC was flooded with calls and the

concept of program delay was instituted immediately by the networks. 1968

# Filet Mignon

*Cobbles know—filet mignon is soooo 90's. Teditor doesn't care. It'll always be one of my favorite cuts of meat. Avoid the overpriced, stuffy steakhouse and cook it at home instead. It's really easy, but considering the steep price tag, you want to do it right.*

A nice, salty crust is absolutely key for filet mignon. And this is only achieved if the pan is super hot and the oil is almost smoking. Be patient! A deep, crusty sear will take about 5 minutes per side.

## On The Counter

2 tbsp. extra-virgin olive oil - 4 (6-oz.) filet mignon  
Kosher salt - Freshly ground black pepper - 4  
tbsp. butter - 1 tbsp. - roughly chopped rosemary

## Get Cookn'

- Make oven happy @ 400°
- In a large skillet (cast iron preferred) over medium-high heat, heat oil. Season steak (at room temperature) with salt and pepper on both sides. When oil is just about to smoke, add steak. Cook until very seared, about 5 minutes, then flip and add butter and rosemary. Baste with butter and cook another 5 minutes.
- Transfer skillet to oven and cook until cooked to your liking, about 10 minutes for medium.
- Remove from pan and let rest 5 minutes before slicing.

## Community Meeting

The Monday evening meeting at the New Castle Police Station's community room to address concerns about Pat's Famous Tavern at the Ferry-Cutoff was well attended. New Castle Police Chief McCabe acknowledged residents concerns and answered many questions. Many of the concerns were about noise, debris being shared with neighboring properties and the glass, bottles and such that their patrons are leaving in the shared parking lot. Chief McCabe encouraged all to call and register problems and complaints.

The State of Delaware's Department of Homeland Security, from its Division of Alcohol and Tobacco Enforcement had officials in attendance.

Their representatives encouraged attendees to contact them directly with concerns. Statewide Operations Supervisor Lt. James A. Diana can be reached at 302-741-2701 or

# THE ♦ TILE ♦ HOUSE

The course of preservation in New Castle parallels the national movement. Its stirrings are evident even in the early 1820s, when John Watson, passing through the town, described the humility he felt at the sight of the ancient Tile House on The Strand. He noted the irons proclaiming the date "1687" imbedded in the front of the structure, a date which provided the house with an aura of timeworn nobility.

After its demolition in 1884, the Tile House assumed legendary status in the minds of town residents. The building inspired local artists whose images of the house were more or less fanciful, but consistent in the prominent display of the date irons. In fact, the date of the building's erection is conjectural, and the date irons may not have been original to it.

All that has been ascertained regarding the date of construction is that the building did not exist when John Boyer bought the property in 1678, but after his death around 1704 his daughters' inheritance included a substantial brick house on the plot. The irons are not present in Benjamin Latrobe's depiction of the Tile House on his 1804-05 survey of New Castle; since his view does include other significant details, it is unlikely that he simply ignored them. The house was renovated in the early nineteenth century and it is possible that the irons were added then, but if so, that fact was forgotten by 1884. By that time, the 1687 date was considered accurate, and the Tile House came to be viewed as New Castle's John Hancock Mansion-a terrible loss, one not to be repeated.
