St. Patrick's Day

has been celebrated since the fourth century when the patron saint himself lived? The story goes, St. Patrick was kidnapped and taken from his native England as a teenager to Ireland. He was held for six years and became a devout Catholic to provide himself solace. After he was freed he spent his life spreading Christianity throughout the country of Ireland, and the rest is history. So where do the traditions of shamrocks and green beer come from? Shamrocks are throwbacks to St. Patrick, who used the local foliage to explain the holy trinity to the Irish. The tradition of drinking came about as a way to cheat for a day during the otherwise somber Lenten period that goes into April. So when you pin on your ➔ **shamrock lapel pin** and cozy up to a cold green beer, raise your glass to good old **St. Patrick**.

Celebrate with Immanuel

On Sunday, March 25th, join the Immanuel parish in celebrating the ministry of **Fr. John Stonesifer** at Immanuel Church on the Green for the past 13 months. Father Stonesifer has greatly aided us during this interim period in our parish life and helped us to move forward toward the next step in our mutual journey of calling our next rector. Following the 10am service, there will be a reception in the Parish House and hosted by members of **St. Anne's Guild**.

At the Delaware City library Thursday evening, residents aired their concerns during the Army Corps of Engineers public hearing. "**A terrible financial impact to our businesses to S.O.L.**" were but a few. City Manager, Dick Cathcart suggests **opening the span on weekends** and closing it Sunday night.

A great concern too was the fact the contract was awarded to a firm from Ohio and not Delaware. Stay tuned - **Teditor**

Concerns aired at Reedy Point Bridge Public Hearing

The Reedy Point Bridge along Del. 9 will close for repairs in April and reopen this fall.

Traffic from the north will be detoured to Del. 1, then U.S. 13 via exit 148 and Pole Bridge Road, which becomes Port Penn Road and leads to Liberty Street (Del. 9). **Traffic from the south** will be directed to U.S. 13 via Port Penn Road. Vehicles will exit at Del. 72 (exit 152), turn right at the top of the ramp and end at the intersection with River Road (Del. 9).

THE IRISH COFFEE STORY

The historic venture started on the night of November the 10th in 1952. Jack Koeppler, then-owner of the Buena Vista, challenged international travel writer Stanton Delaplane to help re-create a highly touted "Irish Coffee" served at Shannon Airport in Ireland. Intrigued, Stan Accepted Jack's invitation, and the pair began to experiment immediately.

The Buena Vista goes For the Guinness Worlds Record for the Worlds Largest Irish Coffee.

Throughout the night the two of them stirred and sipped judiciously and eventually acknowledged two recurring problems. The taste was "not quite right," and the cream would not float. Stan's hopes sank like the cream, but Jack was undaunted. The restaurateur pursued the elusive elixir with religious fervor, even making a pilgrimage overseas to Shannon Airport. Upon Jack's return, the experimentation continued. Finally, the perfect-tasting Irish whiskey was selected. Then the problem of the bottom-bent cream was taken to San Francisco's mayor, a prominent dairy owner. It was discovered that when the cream was aged for 48 hours and frothed to a precise consistency, it would float as delicately as a swan on the surface of Jack's and Stan's special nectar.

Success was theirs! With the recipe now mastered, a sparkling clear, six-ounce, heat-treated goblet was chosen as a suitable chalice.

Try it next Tuesday!

Question: According to folklore, you can stand a raw egg on its end on the equinox. Is this true?

Answer: One spring, a few minutes before the vernal equinox, several Farmer's Almanac editors tried this trick. For a full workday, 17 out of 24 eggs stood standing. Three days later, we tried this trick again and found similar results. Perhaps 3 days after the equinox was still too near. **Try this yourself and send *Cobblestones* a picture of your result!**

Celebrate π Day March 14th

Pi, Greek letter π , is the symbol for the ratio of the circumference of a circle to its diameter. Pi Day is celebrated by math enthusiasts around the world on March 14th ~ **Pi = 3.1415926535...**

With the use of computers, Pi has been calculated to over 1 trillion digits past the decimal. Pi is an irrational and transcendental number meaning it will continue infinitely without repeating. The symbol for pi was first used in 1706 by William Jones, but was popular after it was adopted by the Swiss mathematician Leonhard Euler in 1737. Watch [Pi Dominos](#)
