Paranormal Investigations

Join Delmarva Historic Haunts (DHH) to investigate some of New Castle's oldest and most legendary buildings...the Amstel House, The Dutch House and the Old Library!

For years, these buildings have been closed to paranormal investigations. Now, through a partnership with DHH, the New Castle Historical Society has opened their museums *exclusively* for paranormal investigations with DHH.

You'll join a small group of people led through the three historic buildings and a tour of DHH's mobile lab by one of their experienced paranormal investigators. You can participate in an investigation and decide for yourself whether history really "comes alive" at night in these museums! Check out the results of the DHH Amstel House investigation from earlier this year → [here!](#)

If you're thirsty before hitting the gym? What to drink before a workout has long been up for debate. Everyone has their pre-exercise ritual.

Here are, in no particular order, the best and worst drinks to fuel your workout.

Best Drink: Zico Coconut Water Coconut is trendy today. It naturally contains the potassium, sodium, and magnesium that sports drink companies pump their drinks with. It also contains less sugar than traditional sports drinks like Gatorade (12 grams of sugar in a 14-ounce serving as opposed to 14 grams of sugar in 8 ounces of Gatorade).

Best Drink Water Try to drink two to three cups of water during the two to three hours before exercise.

Best Drink: Low Sodium V8 Juice Packed with vegetables, V8 is a great source of potassium and sodium, two electrolytes you sweat out during intense exercise. Try an 8-ounce glass an hour before you exercise to get 900 mg of potassium (20 percent of your daily needs!) and 140 mg of sodium.

Worst Drink: Coca-Cola It is a well-known fact that soda is nutritionally void and loaded with sugar, so it should come as no surprise that is a poor choice for your pre-workout drink.

Worst Drink: Minute Maid Lemonade The store-bought varieties of this classic beverage are made with the same sweeteners as soda and contain just as much sugar.

Worst Drink: Rockstar Energy Drink: There are rows upon rows of energy drinks at the grocery store these days. They all claim to provide the energy you need to power through anything, whether it's an intense workout or a long day at the office. But what isn't mentioned is the high amount of calories and sugar found in these drinks. Rockstar is one of the worst, with one 16-ounce can coming in at 280 calories and 62 grams of sugar.
