BASEBALL HISTORY

8-21 1947 The first **Little League World Series** tourney is held at Williamsport, Pennsylvania. With a .625 team batting average, the hometown Maynard Middlets easily win the tournament, 16-7.

8-22 1957 Stan Musial tears a muscle and chips a bone swinging at pitch in the fourth inning against the **Phillies** at Connie Mack Stadium. The injury will end 'Stan the Man's' consecutive game streak at 894, but by pinch-running in a game which was suspended on July 21st and completed on August 27th, he establishes a new NL mark officially playing in 895 consecutive contests.

8-23 1982 Gaylord Perry of the Mariners is ejected from the game for applying a foreign substance to the ball. Although the right hander has been suspected for years of loaded up the baseball, it is the first time he has been caught by the umpires. **1989** Cincinnati manger **Pete Rose** agrees to a lifetime suspension from baseball due to allegations of betting on baseball.

8-24 1971 Ernie Banks hits his final home run of his career as the Cubs beat the Reds, 5-4. Mr. Cub's 512th home run comes in the first inning off Jim McGlothlin.

8-25 1995 At Veterans Stadium, **Gregg Jefferies** hits for the cycle as Philadelphia crushes the Dodgers, 17-4. The Phillies' first baseman, who scores has 4 RBIs and scores 4 runs, collects all of his extra-base hits of LA starting pitcher, **Hideo Nomo**.

8-26 1962 The Orioles complete a five-game sweep of the Yankees when right-hander **Robin Roberts**, released by New York during first week of the season, beats **Whitey Ford** at Memorial Stadium, 2-1. Homers by Brooks Robinson and Jim Gentile account for Baltimore's only runs.

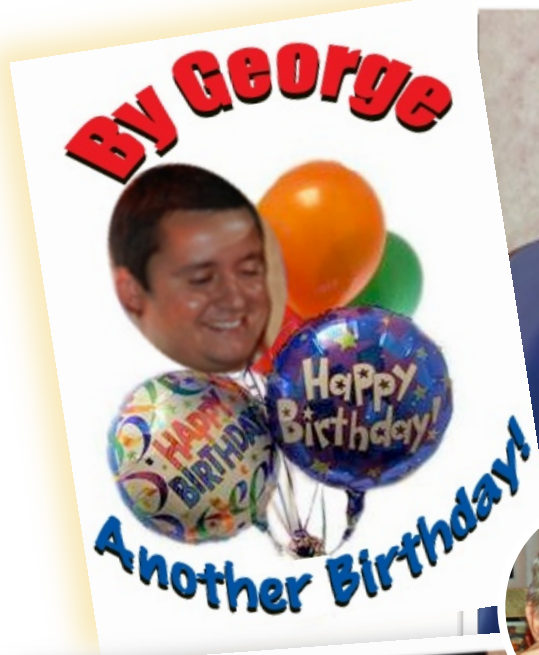

8-27 1951 Scoring all the Phillies' runs in the victory over the Reds, **Del Wilber** hits three solo homers making it the first time in major league history a player has accounted for all the runs in 3-0 game with home runs. The 32-year old catcher will only hit a total of 19 homers during his major league career. **1997** In honor of first baseman **Jim Thome's** birthday, the Indians begin pulling up their socks to just below the knees. The Tribe will win 17 of 27 games en route to clinching American League East flag while sporting this new look

I HAVE A QUESTION. When hurricane Hazel hit New Castle around 1956 - 57ish, the rain, wind and storm was so fierce!!! I remember what I thought that the river came up to approx. Dr. McQuire's house/or close to Booth House. People talked about it for months and years. Can you please find out if, in fact, the river rose (only

about 2 inches) to that point on DE St., or was it only the rain that produced so much water? I really seem to remember that it was the river that rose. It was a horrible storm -- possibly one of the worst storms for New Castle. I really appreciate your Cobblestone's Journal and thank you so much for sharing so much with all of us. G.D. - PA

Dear Cobblestone, GD,
The **1954 Atlantic hurricane season** officially began on June 15, 1954, and lasted until November 15, 1954. It was a busy season one for the Northeastern United States. Hurricane Carol and Hurricane Edna followed nearly identical paths, brushing North Carolina's Outer Banks before striking New England; the two storms caused \$500 million in damages.
Hurricane Hazel was the worst storm of the season, killing hundreds and causing \$250 million (1954 USD) in damage in a long path from Haiti to Toronto.
From speaking to some seasoned readers, I find that the water came up nearly to Second Street, inching just past today's Jessop's. Rain or tidal, water that high is unusual and not a good thing. **Does anyone have more to add to the Hazel History in New Castle?** → [Delaware Hurricanes](#)

Listada de Gandia Eggplant

was originally introduced into southern France

during the early 1850's as the Striped Guadalupe. This is a hot-weather variety true to its tropical origins, for it thrives when temperatures stay in the high nineties. **Freezing Eggplant** Wash, peel and slice 1/3 inch thick. Prepare just enough for blanching at a time. Blanch 4 minutes in 1 gallon boiling water containing 3 T produce protector (or 1/2 cup lemon juice). Cool. Drain. Seal, label, freeze.
