Maybe, it's an old-school thing, but didn't the pedestrian always have the right-of-way? Driver's Ed taught us to yield to a person in the crosswalk. Look's like today we have to yield to phone talking & texting drivers if, like the chicken, we want to get to the other side.

Today, we're told to LOOK UP? Go figure!

§ 4142. Pedestrians' right-of-way in crosswalks.

(a) When traffic-control signals are not in place or not in operation or when the operator of a vehicle is making a turn at an intersection, **the driver of a vehicle shall yield the right-of-way, slowing down or stopping if need be to so yield, to a pedestrian** crossing the roadway within a crosswalk when the pedestrian is upon the half of the roadway upon which the vehicle is traveling, or when the pedestrian is approaching so closely from the opposite half of the roadway as to be in danger.

(b) No pedestrian shall suddenly leave a curb or other place of safety and walk or run into the path of a vehicle which is so close as to constitute an immediate hazard.

(c) Subsection (a) of this section shall not apply under the conditions stated in § 4143(b) of this title.

(d) Whenever any vehicle is stopped at a marked crosswalk or at any unmarked crosswalk at an intersection to permit a pedestrian to cross the roadway, the driver of any other vehicle approaching from the rear shall not overtake and pass such stopped vehicle.

Gov. Jack Markell visits Penn Farm at the Delaware State Fair

Thursday, July 26, the Penn Farm Crew was honored to visit the Delaware State Fair and meet with the Governor.

Our guys were proud to present the Governor (and Secretary Ed Kee) with a basket of our best produce. Governor Markell was impressed with the quality of the products and engaged in conversation about what we had included in the basket.

Paranormal Investigations

Join Delmarva Historic Haunts (DHH) to investigate some of New Castle's oldest and most legendary buildings...the Amstel House, The Dutch House and the Old Library! You'll join a small group of people led through the three historic buildings and a tour of DHH's mobile lab by one of their experienced paranormal investigators.

You can participate in an investigation and decide for yourself whether history really "comes alive" at night in these museums! Check out the results of the DHH Amstel House investigation from earlier this year → [here!](#)

frozen key lime pie

For the crust

- 1 1/2 cups graham cracker crumbs (10 crackers)
- 1/4 cup sugar
- 6 tablespoons (3/4 stick) unsalted butter, melted
- *or ya can buy the damn things at the supermarket*

For the filling

- 6 extra-large egg yolks, at room temperature
- 1/4 cup sugar
- 1 (14-ounce) can sweetened condensed milk
- 2 tablespoons grated lime zest
- 3/4 cup freshly squeezed lime juice (4 to 5 limes)

Make it pretty

- 1 cup (1/2 pint) cold heavy cream
- 1/4 cup sugar
- 1/4 teaspoon pure vanilla extract
- Thin lime wedges

Preheat the oven to 350° F.

For the **crust** combine the graham cracker crumbs, sugar, and butter in a bowl. Press into a 9-inch pie pan, making sure the sides and the bottom are an even thickness. Bake for 10 minutes. Allow to cool completely. *or take them outa the package!*

For the **filling** beat the egg yolks and sugar on high speed in the bowl of an electric mixer fitted with a paddle attachment for 5 minutes, until thick. With the mixer on medium speed, add the condensed milk, lime zest, and lime juice. Pour into the baked pie shell and freeze.

For the **pretty** beat the heavy cream on high speed in the bowl of an electric mixer fitted with the whisk attachment until soft peaks form. Add the sugar and vanilla and beat until firm. Spoon or pipe decoratively onto the pie and decorate with lime. Freeze for several hours or overnight.

*Raw Egg Warning

Food Network Kitchens suggest caution in consuming raw and lightly cooked eggs due to the slight risk of salmonella or other food-borne illness. To reduce this risk, we recommend you use only fresh, properly refrigerated, clean grade A or AA eggs with intact shells, and avoid contact between the yolks or whites and the shell. For recipes that call for eggs that are raw or undercooked when the dish is served, use shell eggs that have been treated to destroy salmonella, by pasteurization or another approved method.
