Summer Series 2011

Introduction to Backyard Composting

By Hetty Francke, Master Gardener
Thursday, July 21 at 7 pm

Join Master Composter/Gardener Hetty Francke to learn how to build and care for an environmentally-friendly compost pile, as well as how to begin your own vermin-composting bin. A power point presentation of Compost Demonstration Sites in Delaware will help to select one of the 6 ways one can start a compost pile.

This will be followed by a question and answer session.

This is a family program and children are encouraged to attend. We will have a display of composting equipment available as well as activities and handouts for the kids.

REGISTRATION REQUESTED

Please stop in or call the library today at 302-328-1995.

Limit of 20 participants per program.

Library Hours: Mon/Tues 10-9, Wed/Thur 2-9, Fri/Sat 10-5
